## From Beginning to Master

...to share with you a project that has been under way for many months. It has been my passion for some time to share with others the information, techniques and 'secrets' I have been using in my reiki practice for many years. One of the challenges I have faced in accomplishing this is the time limitations of a weekend class. There is so much more I want to

Reiki classes cost from \$110 for Reiki I to \$10,000 for the Reiki Master Attunement with occasional extra charges after the Master class to show you how to attune others. This book gives you all of this and more. You are even taught how to give attunements.

Your assistance helping me continue my passion for spreading love and healing throughout the world is greatly appreciated.
